After signing up, you will directly receive login details.

About this webinar: How do conflicts on European borders and close to CEE influence power realignment, affect trading corridors, energy supply and innovation? To what extent do geopolitical conflicts create new opportunities and eventually will lead to a conflict-driven economic rebirth?

The upcoming CEE-Swiss Impulse Session is going to demonstrate new economic shifts in the face of increased geopolitical pressure. The keynote will show to what extent new alternative economic alliances are being explored due to the Ukraine conflict, and which new perspectives exist regarding international trade routes and supply chains. Furthermore, the relentless weaponization of energy resources and the pressing issue of energy security are driving the imperative for diversification. Europe is currently emerging from various existential crises. However, enduring challenges are lying ahead!

About the webinar series: The «CEE-Swiss Impulse Sessions» is a monthly series of short webinars on exciting, current and relevant topics concerning Switzerland and Central Eastern Europe (CEE). It is delivered by outstanding speakers from many different backgrounds. The webinar series aims at inspiring, informing and connecting a diverse audience across industries and functions and thus advance the manifold relationships between Switzerland and all CEE countries.

Initiated in 2021 by the Chamber of Commerce Switzerland Central Europe (SEC) in Zurich, this is a joint project of all chambers of commerce in the CEE region and SEC.

More information about our keynote speaker: Andrej Bastar serves as CEO of Brasidas Group AG, a Swiss headquartered global strategic intelligence and risk advisory consultancy to multinational companies, financial funds, family offices and government entities. Andrej Bastar holds science degrees from the Rutgers University and John Jay College of Criminal Justice in the United States, has conducted forensic investigations and worked across numerous conflict zones across the Balkans, Middle East and Africa. In addition, he has published papers on a variety of topics, ranging from scientific research to proprietary studies on the dynamics of shifting geopolitical landscapes across the Middle East, Russia and CIS countries.
